Grading Policy

Assignments are to be handed at the **beginning** of class on the due date designated by the instructor. (This applies in the case of absences, also.) Assignments will be lowered 10% for each day late. **No assignments will be accepted after the last day of class.**

Participation Policy

We hope that all students enrolled in this course will achieve desired results. Students who have been successful in this course attend class, read the lessons, and complete assignments on time.

Completing work on time is especially important. Typically, this is a busy semester for students. If you get behind early in the semester, it becomes increasingly difficult to catch up. Turn in work on time.

Students who contact me when they encounter problems completing assignments or attending class, work with me to resolve problems. We are willing to work with students who proactively manage their learning experience.

Attendance Policy

Students are expected to attend every class period, be on time and stay for the duration of the class. The instructor maintains the option of adjusting grades if attendance and punctuality should become a concern.

Field Study Assignments

Field experience is an invaluable part of this course. You are required to work a minimum of 10 hours with a student with disabilities in a general education classroom. As needed, three of the required hours can be in a Church setting. Other accommodations are possible, but must be arranged with the instructor early in the semester.

Eight of the ten hours must be completed to pass the course. Complete all ten to avoid losing points on your final grade.

Service opportunities can be found by contacting the Center for Service at 422-8686 or visiting them online at centerforservice.byu.edu or tops@byu.edu

Disability Awareness Assignment

May

4

Monday, May 4 at 9:55am MT

Complete **ONE** of the following (you choose):

1. Family history assignment.
2. Personal interaction analysis.
3. Children's book analysis.

Disability Awareness Assignment Analysis of Personal History

Summary of your inquiry

Most families have members who were born with obvious challenges, who were identified by the schools with a disability or disorder, or who became disabled in childhood or adulthood through physical or mental illness, accident, injury or aging. The purpose of this task is for you to learn more about those individuals and the history of your family's response to those persons. Interview your parents, grandparents and other older relatives to find out as much as you can about these family members.

If you have a good relationship with a family member who has a disability or has a child with a disability, you might choose to interview them about the impact of that disability on their lives, their hopes, their dreams, their nightmares, their challenges. Or you might choose to spend some time with them and reflect on what you learned that ties in with this class.

If you were identified as a student with a disability or were born with a significant physical difference or medical problem, you might choose to have a conversation with your parents about what it was like for them at the time you were identified and how they advocated for you and for themselves.

Provide a concise, clear summary of how you went about your inquiry including dates, times, persons interviewed or interacted with, methods for inquiry, questions asked, and what you learned. **(4 points)**

Reflection

Provide a well-developed reflection on your inquiry and analysis of your findings.

1. Describe your emotional, intellectual and behavioral responses to the exercise. How did the interview make you feel? What did it make you think? What did you want to do after conducting this interview?
 2. What has been discussed in class that ties into what you learned in the interview? Make direct reference to how you have integrated new understandings and made connections with class lectures, discussions, readings, and in-class activities.
 3. What did you learn about individuals with exceptionalities or cultural/personal response from completing this exercise?
 4. How do others in your family view this person with a disability? What is your perception of disabilities? **(1.5 point/bullet point)**
- v. Your writing should have only minor errors in writing mechanics, including spelling, punctuation, and grammar. Good sentence and paragraph construction should be present. People first language is always used.

Analysis of Personal Interaction with an Individual with Disabilities

Summary of Interaction

Provide a summary of an interaction with an individual with disabilities that you engaged in or observed. This interaction should have occurred within the last year. Provide information about when and where the interaction took place, who was involved in the interaction, and what happened. Describe the person with a disability that the interaction revolved around. Please use first names only or pseudonyms to protect the confidentiality of those involved.

Reflection/analysis of personal interaction

Describe your initial response to the interaction, and then dig deeper. Reflect on your own personal response to the interaction. What assumptions were challenged? What did you learn from the interaction? Consider how this interaction compares and contrasts with what you are learning about individuals with disabilities.

1. Describe your emotional, intellectual and behavioral responses to the interaction. How did this interaction make you feel? What did it make you think? What did you want to do after this interaction?
2. What has been discussed in class that ties into what you experienced in this interaction and the comments you've made? What was your personal reaction to the interaction or connections you made with what you've experienced or learned?
3. Do you think people would have a more positive attitude about people with exceptionalities if they interacted with this individual? If so, explain why? What negative attitudes or beliefs about people with disabilities do you think might be subtly or not so subtly reinforced?
4. What did you learn about individuals with exceptionalities from this interaction? What is your perception of disabilities?

5. Did you notice other peoples' reactions to this person? What were their perceptions of this person with a disability? (2 points/bullet point)

- v. Your writing should have only minor errors in writing mechanics, including spelling, punctuation, and grammar. Good sentence and paragraph construction should be present. People first language is always used.

*For this assignment, a list of Children's Literature that includes characters with disabilities can be found here: <http://riyl.wikispaces.com/file/view/Booklist-Disabilities.pdf> Please review one of the books on the list provided.

- v. **Summary of Analysis**

The purpose of this assignment is to analyze how individuals with disabilities are portrayed in children's literature. Read the book and briefly summarize the plot. Using what you are learning about specific disabling conditions, analyze whether the information presented is correct. Reflect on how this book impacts your perception of disabilities and determine if this book would be appropriate for a disability awareness lesson in your classroom.

Analysis

Your analysis should include the following:

- vi. The title and author of the book.
- vii. A brief summary of the book. (2 points)
- viii. Describe your emotional, intellectual, and behavioral responses to the book. How did this book make you feel? What did it make you think? Did the book motivate you to do anything? (2 points)

Church Accommodation Assignment/Activity

June

3

Wednesday, June 3 at 9:55am MT

Please select one of the two case studies below, and write a one page response on how you could best support the needs of the leaders and parents. Be sure to cite two of the provided references. Include two specific accommodations, techniques, or attitudes from your cited references that could be used in the scenario as you formulate your response.

Case Study #1:

A Primary President comes to you with concerns about a child named Jose in Sunbeams who has recently been diagnosed with Autism. In his last ward, his parents were asked to just stay with him in nursery at all times. In his new ward, the parents and his leaders would like to see him more fully integrated with his peers without having to have his parents right beside him. Jose gets easily over stimulated with noises and people, he struggles with sitting in his seat longer than a few minutes at a time, gets extremely bothered when things interrupt the typical routine and has a tendency to throw small objects because he likes to watch as they move through the air.

The Primary President has a background in Journalism and does not even know where to begin on how to work with a child with a disability. She has come to you because of your training in education at Brigham Young University. She would like to know what she could do to help Jose successfully access Primary to his fullest extent possible.

OR

Case Study #2:

A Primary president comes to you with concerns about an 8 year old child named Sterling who has difficulty reading and is frequently disruptive in class. In his last ward, his parents were asked to just stay with him through their meeting times. In his new ward, the parents and his leaders would like to see him more fully integrated with his peers without having to have his parents with him. Sterling gets bored easily and frequently refuses to read any of the class materials. He makes noises and bothers the other children who sit next to him for the majority of the time.

The Primary president has a background in Journalism and does not even know where to begin on how to work with a child like Sterling. Sterling's parents are also frustrated, and his mom is frequently seen leaving church crying because she does not know how to handle him and help his primary teacher. The parents and Primary president have come to you because of your training in education at Brigham Young University. She would like to know what she could do to help Sterling successfully access Primary to his fullest extent possible.

Final Case Study (Part 1)

June

10

Wednesday, June 10 at 9:55am MT

Final Project (100 points)

This is a 2-part assignment. (1) You will develop a hypothetical case study for your final project. You should draw on your experience in the school to complete this assignment. However, this case study project is hypothetical and is **not** a final report of your field experience. This project provides an opportunity for you to synthesize learning. Because collaboration is essential for meeting the needs of diverse learning, this is a collaboration project. You will work with a peer to complete this project (80 points). (2) You will describe your perceptions of disability and analyze how your experience and the knowledge you have gained have shaped your perception of disability. You will also analyze your collaboration experience. This will be submitted as a separate assignment. (20 points).

The following should be included in your final project. (Your final presentation is a separate assignment. Please submit a write-up, not your presentation slides.) Each answer for questions 2-7 should be accompanied with an appropriate citation:

Part 1 (80 points)

1. **Demographic** information for the student described.
 - a. Student's age, gender, grade (2 points)
 - b. Family background (2 points)
 - c. Experience in school (2 points)
 - d. Learner challenges/at-risk characteristics (2 points)
 - e. Student's interests (2 points)
2. Describe your **moral/ethical and legal responsibilities** for educating students with disabilities (10 points). Be sure to cite specific laws and six components of IDEA as taught in CPSE 300 (5 points).
3. Describe the student's **disabling condition**. Which of the 13 special education categories will this child be service under? (4points) Discuss how the condition impacts learning (6 points). Use appropriate citation (2 points).
4. Analyze the student's learning strengths (4 points) and limitations (4 points). Use appropriate citation (2 points).
5. **Write a PLAAFP (Present Level of Academic Achievement and Functional Performance)** for an academic or behavioral concern (10 points).
6. Develop an **intervention plan** using Tier 2 strategies for the area of concern.
 - a. Write a goal for student performance (4 points).
 - b. Plan what you will do (4 points) and what others can do (2 points) to meet the goal.
 - c. Describe how you will measure (4 points) and report progress (2 points).
7. **Describe how you will teach** Describe 3 evidence based classroom accommodations (6 points each) that will facilitate learning. Explain why your accommodations are appropriate given the classroom environment (2 point each) and your student's profile (2 point each). Cite the source for these accommodations (2 point each).

Both partners will submit identical write-ups for part 1. Remember to put your partner's name at the top of the assignment as well as your own.

Part 2 (20 points)

***Note:** Please submit this as a separate assignment under Final Case Study (Part 2).

1. Analyze **your response** to working with students with learning problems. Provide specific examples of how you felt, or how you interacted with the student (5 points). Discuss how your feelings influenced your teaching (5 points). Describe how the knowledge you have acquired and your experience working with your student have shaped your perception of disability (5 points). Be specific.
2. **Analyze your collaboration experience**. What did each of you contribute to the process (2 points)? Rate your contributions and your partner's contributions (1 to 5 scale – 5 outstanding, 1 completely inadequate) (1 point). Discuss your successes and/or challenges collaborating (2 points).
