Grading Policy

Assignments are due prior to the start of class. Any assignments turned in after that are considered late. Assignments can be turned in late for 1 week for 1/2 credit. After a week assignments will not be accepted.

Participation Policy

Attendance is a professional expectation. Regular attendance will be taken. An unexcused absence will count against your grade; an excused absence will not. Students are expected to be on time and prepared. Students will not be penalized for university excused absences. Simply letting the professor know you will not be in class is not an university excused absence. If there is a question as to if an absence is university excused or not please talk to the professor.

Attendance Policy

Methodologies/Teaching Strategies:

Course format will include lecture, group discussion, panel discussion, small group work, service learning, and research participation.

Class Activities and percentage of class time used for each:

- Large group discussion (25%)
- Student presentations to class (10%)
- Application-a limited percentage of time will be spent on the application of principles, case studies, or unique situations that involve analysis and problem solving. (15%)
- A minimal portion of class time will be dedicated to written quizzes and reflection (5%)
- Discussion, reflection and simulation activities in Small groups (20%)

Due: Wednesday, Mar 21 at 1:40 pm

CPSE 440- Observation of an Entry Level Job.docx [Download](#)

CPSE 440: Observation of an Entry Level Job

Purpose of the observation: To identify the academic, social, and executive functioning skills entry level workers need to obtain and maintain a job.

Directions: Identify an entry level job (e.g., gas station attendant, bagger/stocker, Wal-Mart, Fred's, theater) that a transition age student with or without a diploma could obtain. Observe the setting to conduct a job analysis of the site; use the attached form. Afterward, identify one task at the site and develop the task analysis that you would use to teach the individual actions or steps needed to successfully complete the task.

Submit the following:

- **Completed Job Analysis Form (5pts)** - is a description of the environmental and social characteristics of a work site, the jobs or tasks a worker is expected to perform, and potential supports available at the specific work site.
- **Completed Task Analysis (5 pts)** – remember that for a vocational task it is okay to have more than 5 steps.
- **Reflection Paper** – this should be a narrative, not list of questions and answers. The questions below are there simply to guide your reflection. You do not need to include answers to *every* question.

Submit a 1-2 page reflection of the observation (10 pts). What barriers to obtaining and keeping this job might a person with a non-cognitive disability experience? What accommodations or modifications might be appropriate on the job? What transition services would a person need to obtain and maintain this job?

Could a person with a cognitive impairment successfully do this job? What accommodations/modifications might be appropriate? Describe the job you would carve for a person with significant disabilities based on the tasks you observed at this site? What are the specific tasks associated with the job you are carving; how often would the tasks be performed; what supports would be needed?

CPSE 440:Community Mapping Report

Overview:

Your requirements for this class include participating in a modified version of community resource mapping. Given that you will be doing this activity solo (i.e., without a local transition council) I am requiring that you complete the process described in "**Step 2: Mapping**" of the "**Community Resource Mapping**" information brief (<http://www.ncset.org/publications/viewdesc.asp?id=939>).

You will be required to **Identify and Collect Data** on the current set of services available in the community where your practicum is located related to youth with disabilities. This activity will be distributed across the multiple sessions of the course, starting with the session on **Transition and Self-Determination**. In other words, for three of the four of the topical sessions of the class, starting with transition and self-determination, you will need to begin collecting information about the disability-specific services available in your community.

Project Requirements:

You will need to develop (1) a process for identifying and collecting information from your community; (2) develop a set of questions to ask the agencies and organizations you will be required to contact for each session of class. (I have included a sample set of questions below and (3) create a resource guide

1. Develop a process (10 pts): For the Community Service Coordination final project, you will be required to identify all appropriate services for your student or the student case study that you have selected. This will include (a) **disability specific services**, (b) **generic services** (services anyone in the community can access such as a temporary employment agency, public transportation, a community social group, a community art class), and (c) **natural supports** (the ways that the student's family, friends and support network can offer support and assistance). You should think about all of the ways you might identify and contact these services in your community. For example, possible ways to track down information include: checking the yellow pages, contacting the chamber of commerce, seeing if there is a community resource guide in your community (usually available thru social service agencies), checking community websites, even doing a google search for agencies in your community!

2. Collect Information about the Services Available in your Community (30 pts).

When you contact the service agency, find out the following information:

- a. Name, address, phone number, website/email contact information
- b. List of services they provide for youth with disabilities (you may ask about the specific disability of the student you plan to use for your community service coordination project; or about the specific disability most appropriate for that particular service [e.g., mental health services, mental retardation])

- c. List of services they provide for adults with disabilities.
- d. How are services funded? What types of funding sources pay for services?
- e. Are there services the agency is planning on offering in the near future for youth with disabilities?
- f. Are there critical elements missing from what you have found out about this service agency related to what you have read/know about the support needs of youth with disabilities?
- g. Does the agency know of other agencies or organizations in the community that provide services to similar populations of individuals with disabilities (e.g., other employment services, mental health services, housing services, case management services).

These are possible questions to ask. You might come up with others that will help you collect the right information about services in your community.

3. Create a Resource Directory (10 pts).

Using the information you have gathered on community resources create a resource directory that is divided up into the different topic areas. The resource directory should be visually appealing and functional. If possible this resource directory should be shared with the teacher you worked with on your practicum.

University Policies

Honor Code

In keeping with the principles of the BYU Honor Code, students are expected to be honest in all of their academic work. Academic honesty means, most fundamentally, that any work you present as your own must in fact be your own work and not that of another. Violations of this principle may result in a failing grade in the course and additional disciplinary action by the university. Students are also expected to adhere to the Dress and Grooming Standards. Adherence demonstrates respect for yourself and others and ensures an effective learning and working environment. It is the university's expectation, and every instructor's expectation in class, that each student will abide by all Honor Code standards. Please call the Honor Code Office at 422-2847 if you have questions about those standards.

Sexual Misconduct

In accordance with Title IX of the Education Amendments of 1972, Brigham Young University prohibits unlawful sex discrimination against any participant in its education programs or activities. The university also prohibits sexual harassment-including sexual violence-committed by or against students, university employees, and visitors to campus. As outlined in university policy, sexual harassment, dating violence, domestic violence, sexual assault, and stalking are considered forms of "Sexual Misconduct" prohibited by the university.

University policy requires all university employees in a teaching, managerial, or supervisory role to report all incidents of Sexual Misconduct that come to their attention in any way, including but not limited to face-to-face conversations, a written class assignment or paper, class discussion, email, text, or social media post. Incidents of Sexual Misconduct should be reported to the Title IX Coordinator at t9coordinator@byu.edu or (801) 422-8692. Reports may also be submitted through EthicsPoint at <https://titleix.byu.edu/report> or 1-888-238-1062 (24-hours a day).

BYU offers confidential resources for those affected by Sexual Misconduct, including the

university's Victim Advocate, as well as a number of non-confidential resources and services that may be helpful. Additional information about Title IX, the university's Sexual Misconduct Policy, reporting requirements, and resources can be found at <http://titleix.byu.edu> or by contacting the university's Title IX Coordinator.

Student Disability

Brigham Young University is committed to providing a working and learning atmosphere that reasonably accommodates qualified persons with disabilities. If you have any disability which may impair your ability to complete this course successfully, please contact the University Accessibility Center (UAC), 2170 WSC or 422-2767. Reasonable academic accommodations are reviewed for all students who have qualified, documented disabilities. The UAC can also assess students for learning, attention, and emotional concerns. Services are coordinated with the student and instructor by the UAC. If you need assistance or if you feel you have been unlawfully discriminated against on the basis of disability, you may seek resolution through established grievance policy and procedures by contacting the Equal Employment Office at 422-5895, D-285 ASB.
