

CPSE 602 Winter 2018
 Social-Emotional Assessment and Intervention of Children and Adolescents
 MCKB 343 Mondays & Wednesdays 9:00 to 10:50
 Brigham Young University

Instructor

Ellie Young, Ph.D., NCSP
 340 MCKB
 422-1593
 ellie_young@byu.edu

Office Hours: Mondays and Wednesdays 11:00-12:00. By appointment as needed.

NASP Domain	Course Objectives	Learning Activities
Domain 1: Data-Based Decision Making and Accountability	<p>When presented with an individual referral question for a student with social-emotional, and behavioral concerns, students will use the problem solving model to identify the problem, analyze why the problem is occurring, develop interventions, and then evaluate intervention outcomes</p> <p>Students will appropriately apply the criteria for identifying children with Educational Disabilities (specifically, Behavior or Emotional Disorders and Other Health Impaired) found in IDEA.</p>	<ul style="list-style-type: none"> • Psycho-educational Report Reading Summary • Counseling Intervention Project • Psychological Assessment with Report
Domain 4: Interventions and Mental Health Services to Develop Social and Life Skills	<p>Students will demonstrate competencies in integrating assessment information that leads to effective, evidenced-based interventions. These interventions will incorporate both environmental and individual interventions.</p> <p>Students will demonstrate through role-plays their counseling skills. Students will respond to feedback about their counseling skills to demonstrate growth and insight about their role as counselors.</p>	<ul style="list-style-type: none"> • Reading Activities • Intervention Project • Performance Exam • Exams 2, 3, and 4
Domain 6: Preventive and Responsive Services	<p>Students will demonstrate competency in designing, providing, and evaluating services for students in a multi-tiered system of support (MTSS) that address social-emotional and behavioral needs.</p> <p>Students will describe how diversity issues (e.g. culture, race, ethnicity, socioeconomic status, religion, and gender) influence social, emotional, and behavioral concerns in school-aged children and adolescents. Assessment and intervention plans will be developmentally sensitive and culturally responsive. Students will demonstrate a compassionate, non-judgmental attitude and behaviors towards persons and families with mental health disorders or social/emotional behavioral concerns.</p>	<ul style="list-style-type: none"> • Intervention Project • Exam 1

Required Textbooks

- Mash, E. J., & Barkley, R. A. (2014). *Child Psychopathology, Third Edition*. New York, NY: The Guilford Press.
- Murphy, J. J. (2015). *Solution-Focused Counseling in Schools, Third Edition*. Alexandria, VA: American Counseling Association.
- Mazza, J. J., Dexter-Mazza, E. T., Miller, A. L., Rathus, J. H., & Murphy, H. E. (2016). *DBT® Skills in Schools: Skills Training for Emotional Problem Solving for Adolescents*. Guilford Publications.

Suggested Textbooks (Available for checkout in the Testing Vault)

- Dawson, P. & Guare, R. (2010). Executive Skills in Children and Adolescents, 2nd Edition

Evaluation of student learning

Participation, Attendance, and Professionalism

Students are expected to attend class each week and be prepared to discuss the readings. Students who miss more than one class period may have their grade lowered one full letter grade, which will be determined by the professor on a case-by-case basis. Students are expected to be in class, ready to learn at 9:00 a.m. Professionalism points will be awarded to those students who constructively solve problems and communicate effectively with the professor and peers. Notifying the instructor in a timely manner when you are unable to attend class is also part of the professionalism grade. Responding to cell phones and using a laptop for non-class purposes during class times are a few of the examples of behavior that may result in a lower professionalism grade. Professionalism also includes resolving differences with a professional, proactive style that focuses on taking responsibility for learning, listening with understanding of different points of view, and accepting outcomes that may not be preferred.

Student Information Sheet

Students will complete the student information sheet at the end of this syllabus.

Course Evaluations

Three points will be awarded for completing course evaluations. When you complete the evaluations, please release your name so that your points can be recorded.

Reading Activities

At the beginning of most class periods, we will spend approximately 10 minutes reviewing the reading through a variety of activities. Upload your paper to Learning Suite by 8:30 a.m each Monday morning. Thoughtfully prepare one of the following types of documents (approximately 2 pages or 3-5 power point slides) that shows your understanding of the readings.

- A handout for parents or teachers that summarizes and applies the big ideas or guiding principles.
- Approximately 5 power point slides that highlight the big ideas in the readings, why they are important, and how parents/teachers could use these ideas.
- About 5-7 quiz questions with answers.
- A reflection paper that answers these questions
 1. What were the 2-3 big ideas in the reading?
 2. Why are they important?
 3. How can I use them in my work?
 4. What questions do I still have?

The third page of your reflection paper should focus on the following questions:

1. What progress did I make on a) my intervention project and b) my assessment project?
2. What did I learn from my experiences with my project?
3. What mistakes did I make and what did I learn from this? (Making mistakes is good!)
4. What class content did I use in practicum this week?
5. What do I wish I would have known how to do?
6. What am I going to do next week?
7. What questions do I have for ELY?

Psycho-educational Report Reading Summary

Read and review 2 of your supervisor's psycho-educational reports that focus on a student with a behavioral or emotional concern. Write a 2-page reflection paper summarizing the strength of the reports, and what you learned from reading the reports. Try to determine a) who the intended audience is (i.e., parents, teachers, psychologists, etc.) b) how the referral question guided the assessment process, and c) how the assessment process determined the interventions and outcomes.

Exams

Students will complete four written exams throughout the semester. The exams will require students to apply and integrate the theories, models, and principles in the readings and class discussions. The exams will probably be take home assignments that will consist of case studies, essay or short answer questions.

Students will complete one performance exam individually with the instructor. For this evaluation, the student will be given a scenario and will role-play counseling responses. This can be completed any time after April 1, 2018.

If a student earns below 80% on any exam, they will be required to complete additional learning activities that will be developed in collaboration with the professor.

Counseling Intervention Project

Students will complete a school-based project in their practicum site that address social, emotional, or behavioral learning. The project must include a group or individual counseling intervention. This project must include initial, baseline data collection, a targeted, evidence-based intervention with measurable outcomes. The project will also include outcome data. You must document collaboration with appropriate school personnel and parents/guardians. Students will use the NCSP case study structure to summarize and report the results of this project; the project will be evaluated based on the rubric inherent in the NCSP case study structure. The counseling process should last approximately 8 weeks. You will turn in the case study in four separate sections.

Before you begin this project, seek instructor approval by scheduling a time to meet individually with the instructor to discuss your intervention.

Psychological Assessment with Report

You will complete a full-battery assessment for a student with behavioral/social-emotional concerns and write a traditional report. The report will document your skills in refining referral questions, developing hypotheses, designing multifaceted assessments to answer referral questions, and finally interpreting the assessment results to answer the referral questions and to develop empirically-based interventions. The report will be graded using the rubric available on Learning Suite. You will turn in the report in two parts. Part 1 will include the child identifying information, reason for referral, assessment procedures, and review of records. Part 2 will include interview summaries, observations, test results, summary, recommendations/interventions, signatures, and data summary.

Your report must include at least two interventions with an empirical basis. You must include enough detailed information that another person could implement the intervention. For example, rather than stating the student should learn social skills, you will identify specific social skills, prepare a lesson outline and stipulate how outcomes will be measured. You must include most, if not all, of the following elements in your assessment and report:

1. Archival records review that includes attendance history, number of schools attended, and other important educational components
2. Standardized checklists completed by both parents and teachers
3. Two to three structured student/classroom observations
4. Student, parent, teacher interviews completed in person
5. Academic/Cognitive Assessment including a curriculum-based evaluation
6. Social Skills Assessment (e.g., SSRS)
7. Functional Behavior Assessment
8. Evaluation and documentation of strengths of student and family
9. Interventions (at least two evidence-based interventions that are developed collaboratively with the teacher or parent). The interventions must include both self-monitoring (if the student is old enough), direct instruction of a replacement skill, and a plan for determining the effectiveness of the intervention with data. One of the interventions must address an environmental factor that influences or maintains ineffective behavior.

Course policies and procedures

Turning in your work on or before the due date shows respect for other students and the instructor, and it implies that learning is a personal priority. No late written assignments will be accepted unless you have discussed the issue with the professor before the due date (discussion implies a two-way conversation). Assignments will be due during the first 10 minutes of class on the dates listed on the schedule.

Assignments must be typewritten and double-spaced with 10- or 12-point font with one-inch margins. Also, use American Psychological Association style, and follow the guidelines in the Publication Manual of the American Psychological Association, 6th edition.

You may submit some of your assignments electronically, which is the professor's preference. All reports must be submitted electronically. Please be aware of confidentiality issues and maintain the confidentiality of students and families with whom you are working and change the names of students in reports or other written work.

Please refer to persons with disabilities by naming the person before the disability, e. g. "the person with depression" rather than "the depressed person" or "the ADHD child." If you put the disability before the person in any of your writings, 3 points will be deducted from your score.

Please provide me with a working email address. There may be times when changes to assignments or readings will be necessary. Most likely, I will notify students of these changes via email. You will be responsible for checking your email and responding to any course changes.

Students and the instructor will be expected to abide by BYU's Honor Code and support others in their efforts to be disciple scholars. Be especially aware of referencing the work of others and avoiding plagiarism. Should concerns arise, please meet individually with me.

Please be respectful of office hours. I am happy to meet with students and enjoy doing so. I intend to work from home several days each week and may not be available for student consultation beyond office hours or at previously scheduled appointments.

I welcome your constructive feedback and ideas about the assignments, classroom discussion and presentations, exams, or other elements of the course. If you have ideas that would improve how our community of learners functions, please meet with me. If aspects of the course are not making sense to you or are not meeting your needs please visit with me to problem solve rather than admire the problem behind the scene. This is a professional skill that should be demonstrated frequently as a graduate student.

Learning should be fun, challenging, and joyous. Please be respectful of the thoughts, feelings, and opinions of others. If you disagree, please share your ideas politely. Diversity of thought enriches learning and will be respected. We do not have to think the same, but we do need to rely on research and empirical theories and models. When you share your opinions, be prepared to discuss evidence that supports your opinion.

I reserve the right to change any part of the syllabus due to the learning needs of the students, teacher, or guest lecturers. I also reserve the right to make modifications in grading practices or point values.

Departmental Student Evaluations:

At the end of each semester, CPSE department faculty reviews the progress of each CPSE student in the following areas: knowledge, skills, and disposition. Your efforts, performance, and attitudes in this course will directly influence your departmental evaluation. For example, if your writing does not demonstrate graduate-level writing skills or you have consistently weak performance on quizzes or other assignments, you may be given a marginal or unsatisfactory rating in the knowledge area. If you are not responsive to feedback about your skills or do not demonstrate improvement in a skill area, this will be reflected in your skills evaluations. Lastly, if your assignments are submitted past the deadline, you come to class late, do not participate in class discussions, or do not demonstrate commitment to the course and program, your disposition evaluation will be negatively effected. If you are given a less than satisfactory rating, resources will be identified to help you address the concerns.

In addition, students in the school counseling psychology program or the counseling psychology program who earn less than 70% of the points available for the course will be required to repeat and pass the course.

Title IX of the Education Amendments of 1972 prohibits sex discrimination against any participant in an educational program or activity that receives federal funds. The act is intended to eliminate sex discrimination in education and pertains to admissions, academic and athletic programs, and university-sponsored activities. Title IX also prohibits sexual harassment of students by university employees, other students, and visitors to campus. If you encounter sexual harassment or gender-based discrimination, please talk to your professor or contact one of the following: the Title IX Coordinator at 801-422-2130; the Honor Code Office at 801-422-2847; the Equal Employment Office at 801-422-5895; or Ethics Point at <http://www.ethicspoint.com>, or 1-888-238-1062 (24-hours). Another option, is to call or visit with Lisa Leavitt, BYU's full-time advocate for victims of sexual assault. If you wish to speak with someone confidentially about an incident of sexual assault or abuse, contact Lisa Leavitt: lisa_leavitt@byu.edu; advocate@byu.edu; or call 801-422-9071. Lisa's office is located in 1500 WSC on the BYU campus. As a BYU professor if I become aware of or reasonably suspects any incidents of Sexual Misconduct, I must promptly report all relevant information to the Title IX Coordinator. I am instructed to inform the reporting individual that I must report the incident.

Students with Disabilities:

Brigham Young University and I are personally committed to providing a working and learning atmosphere which reasonably accommodates qualified persons with disabilities. If you have any disability which may impair your

ability to complete this course successfully, please contact me at the beginning of the semester, as early as possible, to ensure adequate prevention and intervention efforts to ensure a positive learning experience. You may also contact the University Accessibility Center (UAC; 801-422-2767). They have an Internet site describing their services and contact information [<https://uac.byu.edu/>]. Reasonable academic accommodations are reviewed for all students who have qualified documented disabilities. Services are coordinated with the student and instructor by the UAC Office. If you need assistance or if you feel you have been unlawfully discriminated against on the basis of disability, you may seek resolution through established grievance policy and procedures. You may contact the Equal Employment Office in the ASB. They can be reached phone at 801-422-6878 or you can visit their offices in the ASB: D-282, D-292, D-240C.

SCHEDULE of Learning Activities and Assignments

Week	Topic	Readings	Assignments Due
Jan 8 & 10	<p>The need for universal social-emotional-behavioral instruction</p> <p>Paradigms of mental health in educational contexts</p> <p>Review of counseling skills</p> <p>Introduction to course</p>	<p>https://casel.org/wp-content/uploads/2016/01/meta-analysis-child-development-1.pdf</p> <p>Reading 1--The best mental health programs start with all students.
