Course Information

Description

CPSE 420 has been designed to prepare teacher candidates to conduct a comprehensive assessment and make placement and instructional decisions based on data. Teacher candidates will use formal and informal measures to determine present levels of academic and functional performance, classifying students for special education services, and identifying student's instructional needs. These skills will be used to develop the ability to write measurable annual goals and short-term objectives for IEP development. Application of course concepts will occur in a local school district each week.

Learning Outcomes

Principles and standards for ethical assessment

1. Describe assessment terminology, ethics, legal provisions, regulations, program standards, and procedures.

Administer and interpret formal assessments

2. Select, describe, administer, and interpret formal nonbiased assessments.

Assessment and determining special education services

4. Describe the use of assessment results for determining special education services.

Informal assessment

3. Describe informal assessments and applications for various disabilities.

Assessment and individualized education programs (IEP)

5. Use assessment results in creating individualized education programs.

Grading Scale

Grading Policy

Assignments are due at the beginning of class or at the times posted on Learning Suite.

- Late assignments are worth 50% for up to a week
- Work that is more than one week late, will not be accepted.
- Academic honesty will be strictly enforced.
- NO Plagiarism

Participation Policy

Examples of active participation:

- attending class
- asking questions
- answering questions
- making comments (kudos for comments that relate to material in the text or sharing brief, relevant experiences)
- responding to something another student says
- answering a question asked by a student
- constructively disagreeing with something in class

Non-examples:

- staring at your computer/phone during lecture/discussions
- speaking without being recognized
- making off-topic comments during group discussions
- unjustified fault finding or negativity
- making fun or otherwise berating something said by another person

Assessment Inventory

1. **With your partner**, schedule a time to meet with your mentor teacher to talk about the formal and informal tests they use to aid assessment in their classroom.
2. List all of the formal tests (e.g., individual, standardized, norm-referenced) they use in re-evaluations or initial placement meetings (e.g., Woodcock Johnson, BOS, SSIS, WISC, Brigance)
3. List all the informal tests they use to collect formative and summative data in the classroom during fall semester (e.g., DIBELS, Acadience, unit tests).
4. Coordinate with mentor teacher to observe administration of a **formal** test.
5. **Individually** submit a 2 page (double spaced) summary of the meeting including:
 - Both lists of tests
 - A description of the formal test you plan to observe
 - A reflection of what you hope to learn by observing this assessment.

Due: Thursday, Sep 23 at 12:59 pm

Administering a Benchmark Assessment

Using the information you gained from completing the Assessment Inventory, you will select an informal test to administer with students in your practicum setting. This decision should be made in consultation with your practicum teacher and should reflect the needs of the students in your classroom. During this assignment, you will give an informal test:

1. Work with your mentor teacher to select a student to give a benchmark test (ask the teacher for a student with good attendance)
2. Work with your mentor teacher to select one of the following benchmarks tests or another approved by your CPSE 420 instructor and practicum teacher
 - a. DIBELS Benchmark (Grades 1-6) <https://dibels.org/dibelsnext.html> (<https://dibels.org/dibelsnext.html>)
 - b. DIBELS Daze Benchmark (Grades 3-6) <https://dibels.org/dibelsnext.html> (<https://dibels.org/dibelsnext.html>)
 - c. Easy CBM (no benchmarks available on free version, but you can use the first progress monitoring assessment for the skill you choose) <https://www.easycbm.com/> (<https://www.easycbm.com/>)
3. Bring your assessment to class on during the class we learn about graphing your data and setting an aimline.
4. Write a one page reflection describing your student (not using real names), how you selected your assessment, and how much progress you expect them to make, on this skill, in the next 3 weeks.

Due: Thursday, Oct 07 at 11:59 pm

1. Conduct an observation of a **formal** test at your practicum site.
 - Prior to the observation, read the detailed instructions for administering the test in the test manual. Pay special attention to any instructions for arranging the testing environment, building rapport with the examinee, and the overall structure/activities that will be used during the test.
 - During the observation, write detailed notes describing what you see the examiner doing during testing.
 - *Please do not interrupt or distract the teacher/student during testing.*
 - After the observation, share your notes with the teacher and ask any clarifying questions that might help you complete the report.

2. Write a 2-page double spaced reflection about that includes your teacher interview and your test observation
 - What test did you observe and what was the point of assessment for this student?
 - Describe what happened during testing.
 - Summarize the results of testing including statistical information (i.e., normative or criterion-referenced information, standard scores, subdomain summaries)?
 - *Remember your legal and ethical obligations as you share scores and results in this writeup. At a minimum, you should use a pseudonym for the student.*
 - What was the purpose of the assessment for this student?
 - What questions do you have after watching the assessment?

Due: Thursday, Oct 21 at 11:59 pm

Initial Assessment Plan (Case Study)

Practicum partners will use a real student in their practicum setting and pretend that they are being referred for an initial evaluation to investigate whether they require special education services. Partnerships need to create and submit an initial proposal for a group case study in Learning Suite by 11:59 pm TONIGHT!

The proposal must include:

- Names of everyone in your group
- Demographic Information of referred student
 - always use a pseudonym but their real birthdate is preferable
 - grade level
 - some anecdotal info about them (e.g., they're friendly, shy, want to please adults, etc...)
- Reason for Referral
 - this should be a narrative about what challenges the student has and what impact it's having on their academics or social life
- Areas of Concern for Referral
 - specific academic areas--EX: math reasoning, reading comprehension, social skills/behavior, etc...
- Things to consider when testing this particular person
 - personality, behaviors, obvious physical or visual impairments, etc...
- Proposed Tests for Referral
 - use what we've talked about in class for suggestions for the type of test data we might need--refer to the state rules
- Proposed Test Administrator for each assessment
 - which member of your partnership will administer what tests and which imaginary team members will administer other tests
 - Ex: school psychologist will administer the cognitive test, Speech Pathologist will administer speech/language tests
- Areas to consider for test accommodations
 - Ex: extra time, test items enlarged, frequent breaks, a test administered in their native language, etc...
- Proposed Dates and Times and Length of sessions for each assessment
 - Make up a pretend schedule and estimate of how long each section will take.

4. Graph the data on a line graph include
 - a. Benchmark and Target
 - b. Student Performance Data
 - c. Trendline
5. Discuss your results with your practicum teacher
 - a. What is the data telling us about the student's performance?
 - b. What changes should be made to instruction if any?

6. Write a two to three-page double spaced reflection that describes your student, describes the progress monitoring tool you used and why it was selected, describes how the progress monitoring sessions went, discusses the student's performance in relation to the aimline. University Policies

Honor Code

In keeping with the principles of the BYU Honor Code, students are expected to be honest in all of their academic work. Academic honesty means, most fundamentally, that any work you present as your own must in fact be your own work and not that of another. Violations of this principle may result in a failing grade in the course and additional disciplinary action by the university. Students are also expected to adhere to the Dress and Grooming Standards. Adherence demonstrates respect for yourself and others and ensures an effective learning and working environment. It is the university's expectation, and every instructor's expectation in class, that each student will abide by all Honor Code standards. Please call the Honor Code Office at 422-2847 if you have questions about those standards.

Preventing Sexual Misconduct

Brigham Young University prohibits all forms of sexual harassment—including sexual assault, dating violence, domestic violence, and stalking on the basis of sex—by its personnel and students and in all its education programs or activities. University policy requires all faculty members to promptly report incidents of sexual harassment that come to their attention in any way and encourages reports by students who experience or become aware of sexual harassment. Incidents should be reported to the Title IX Coordinator at t9coordinator@byu.edu or (801) 422-8692 or 1085 WSC. Reports may also be submitted online at <https://titleix.byu.edu/report> (<https://titleix.byu.edu/report>) or 1-888-238-1062 (24-hours a day). BYU offers a number of resources and services for those affected by sexual harassment, including the university's confidential Sexual Assault Survivor Advocate. Additional information about sexual harassment, the university's Sexual Harassment Policy, reporting requirements, and resources can be found in the University Catalog, by visiting <http://titleix.byu.edu> (<http://titleix.byu.edu>), or by contacting the university's Title IX Coordinator.

Student Disability

Brigham Young University is committed to providing a working and learning atmosphere that reasonably accommodates qualified persons with disabilities. A disability is a physical or mental impairment that substantially limits one or more major life activities. Whether an impairment is substantially limiting depends on its nature and severity, its duration or expected duration, and its permanent or expected permanent or long-term impact. Examples include vision or hearing impairments, physical disabilities, chronic illnesses, emotional disorders (e.g., depression, anxiety), learning disorders, and attention disorders (e.g., ADHD). If you have a disability which impairs your ability to complete this course successfully, please contact the University Accessibility Center (UAC), 2170 WSC or 801-422-2767 to request a reasonable accommodation. The UAC can also assess students for learning, attention, and emotional concerns. If you feel you have been unlawfully discriminated against on the basis of disability, please contact the Equal Opportunity Office at 801-422-5895, eo_manager@byu.edu, or visit <https://hrs.byu.edu/equal-opportunity> (<https://hrs.byu.edu/equal-opportunity>) for help.

Academic Honesty

The first injunction of the Honor Code is the call to "be honest." Students come to the university not only to improve their minds, gain knowledge, and develop skills that will assist them in their life's work, but also to build character. "President David O. McKay taught that character is the highest aim of education" (The Aims of a BYU Education, p.6). It is the purpose of the BYU Academic Honesty Policy to assist in fulfilling that aim. BYU students should seek to be totally honest in their dealings with others. They should complete their own work and be evaluated based upon that work. They should avoid academic dishonesty and misconduct in all its forms including but not limited to plagiarism fabrication or

should avoid academic dishonesty and misconduct in all its forms, including but not limited to plagiarism, fabrication or falsification, cheating, and other academic misconduct.

Covid 19 Statement

While COVID 19 conditions persist and until further notice, students and faculty are required to wear face coverings at all times during class; faculty are not at liberty to waive this expectation.

Students who feel sick, including exhibiting symptoms commonly associated with COVID 19 (fever; cough; shortness of breath/difficulty breathing; chills; muscle pain; sore throat; new loss of taste or smell; etc.) should not attend class and should work with their instructor to develop a study plan for the duration of the illness.

Mental Health

Mental health concerns and stressful life events can affect students' academic performance and quality of life. BYU Counseling and Psychological Services (CAPS, 1500 WSC, 801-422-3035, caps.byu.edu) provides individual, couples, and group counseling, as well as stress management services. These services are confidential and are provided by the university at no cost for full-time students. For general information please visit <https://caps.byu.edu> (<https://caps.byu.edu>); for more immediate concerns please visit <http://help.byu.edu> (<http://help.byu.edu>).

Plagiarism

Intentional plagiarism is a form of intellectual theft that violates widely recognized principles of academic integrity as well as the Honor Code. Such plagiarism may subject the student to appropriate disciplinary action administered through the university Honor Code Office, in addition to academic sanctions that may be applied by an instructor. Inadvertent plagiarism, which may not be a violation of the Honor Code, is nevertheless a form of intellectual carelessness that is unacceptable in the academic community. Plagiarism of any kind is completely contrary to the established practices of higher education where all members of the university are expected to acknowledge the original intellectual work of others that is included in their own work. In some cases, plagiarism may also involve violations of copyright law. Intentional Plagiarism-Intentional plagiarism is the deliberate act of representing the words, ideas, or data of another as one's own without providing proper attribution to the author through quotation, reference, or footnote. Inadvertent Plagiarism-Inadvertent plagiarism involves the inappropriate, but non-deliberate, use of another's words, ideas, or data without proper attribution. Inadvertent plagiarism usually results from an ignorant failure to follow established rules for documenting sources or from simply not being sufficiently careful in research and writing. Although not a violation of the Honor Code, inadvertent plagiarism is a form of academic misconduct for which an instructor can impose appropriate academic sanctions. Students who are in doubt as to whether they are providing proper attribution have the responsibility to consult with their instructor and obtain guidance. Examples of plagiarism include: Direct Plagiarism-The verbatim copying of an original source without acknowledging the source. Paraphrased Plagiarism-The paraphrasing, without acknowledgement, of ideas from another that the reader might mistake for the author's own. Plagiarism Mosaic-The borrowing of words, ideas, or data from an original source and blending this original material with one's own without acknowledging the source. Insufficient Acknowledgement-The partial or incomplete attribution of words, ideas, or data from an original source. Plagiarism may occur with respect to unpublished as well as published material. Copying another student's work and submitting it as one's own individual work without proper attribution is a serious form of plagiarism.

Diversity and Inclusion in the Classroom

"Because we feel the depth of God's love for His children, we care deeply about every child of God, regardless of age, personal circumstances, gender, sexual orientation, or other unique challenges" (President Russell M. Nelson, "The Love and Laws of God," September 2019). As a university community we strive to foster an educational environment that promotes the personal dignity of every student and accept individual responsibility to eliminate racism, sexism, and nationalism. Our course participation reflects our understanding that every individual is a child of Heavenly Parents. We create learning environments in which every individual is motivated to express their opinions and perspectives and ask questions to augment discussions and learning. We listen to, learn from, and strive to consider thoughtfully the opinions of others. We use language that is polite, considerate, and courteous—even when we strongly disagree.

Respectful Environment

"Sadly, from time to time, we do hear reports of those who are at best insensitive and at worst insulting in their comments to and about others... We hear derogatory and sometimes even defamatory comments about those with different political, athletic, or ethnic views or experiences. Such behavior is completely out of place at BYU, and I enlist the aid of all to monitor carefully and, if necessary, correct any such that might occur here, however inadvertent or unintentional. "I worry particularly about demeaning comments made about the career or major choices of women or men either directly or about members of the BYU community generally. We must remember that personal agency is a fundamental principle and that none of us has the right or option to criticize the lawful choices of another." President Cecil O. Samuelson, Annual University Conference, August 24, 2010 "Occasionally, we ... hear reports that our female faculty feel disrespected, especially by students, for choosing to work at BYU, even though each one has been approved by the BYU Board of Trustees. Brothers and sisters, these things ought not to be. Not here. Not at a university that shares a constitution with the School of the Prophets." Vice President John S. Tanner, Annual University Conference, August 24, 2010
